POSTAL RATE COMMISSION
OFFICE OF THE SECRETARY

Special Services Fees and Classifications) Docket No. MC96-3

OFFICE OF THE CONSUMER ADVOCATE
INTERROGATORY TO UNITED STATES POSTAL SERVICE
(OCA/USPS-89)
(November 6, 1996)

Pursuant to sections 25 and 26 of the Rules of Practice of the Postal Rate Commission, the Office of the Consumer Advocate hereby submits an interrogatory and request for production of documents. Instructions included with OCA Interrogatories 1-4 to the United States Postal Service dated June 19, 1996, are hereby incorporated by reference.

Respectfully submitted,

Gail Willette

GAIL WILLETTE

Director

Office of the Consumer Advocate

Shelley S. Dreifuss

SHELLEY S. DREIFUSS

Attorney

OCA/USPS-89. Please refer to the response to OCA/USPS-88.

- a. Library Reference SSR-156 includes two diskettes, each containing a single file named FMSRTE.DAT. Please explain the difference between these two files.
- b. Does either of the FMSRTE.DAT files correspond to one of the data sets named FMSRTE in either SSR-99 or in SSR-156? If so, please identify the data set (by library reference, page, and line number) and which of the FMSRTE.DAT files it corresponds to. If not, please explain exactly which data was used to produce the FMSRTE.DAT files.
- c. The second SAS program of SSR-99 required only two input data sets (files ROUTES.LDLSMN.PS754D01.STATB.VOLUME00x and FMS.DATA) to produce tables of average cost per square foot figures. Tables of average cost per square foot figures are produced in SSR-156 using the input files of SSR-99 plus three additional files (INSTMAST.FY9603.TXT, POBOX.SVYSTEP2.JAN30.DAT, and H30005.POBOX.ADDRFMS.DATA).
 - i. Please explain why the additional files were necessary for SSR-156.
 - ii. Please describe the contents of each of the files used in SSR-156 and define each variable used. For example, what is the difference between CAG, FMSCAG, and ACAG?

- d. Please refer to the tables of cost per square foot by delivery group at page 29 of SSR-156 and at page 31 of SSR-99. Please explain why these figures do not agree for delivery groups 1C, 2, and 3. Please identify which of the two tables of cost per square foot is correct.
- e. Please compare the tables at page 29 of SSR-156 with the table at page 31 of SSR-99. In SSR-156, the numbers of observations for groups 1C, 2, and 3 are 5854, 14959, and 4468, respectively. In SSR-99, the corresponding figures are 5853, 14989, and 4438. Please explain the reason for this discrepancy.
- f. Please refer to the attached tabulations of the larger of the two FMSRTE.DAT files included with SSR-156.
 - i. Please explain why the number of observations by CAG for FMSRTE.DAT differs from that shown at pages 22-24 of SSR-156 for CAGs G-L.
 - ii. Please explain why the number of observations by delivery group for FMSRTE.DAT differs from that shown at page 29 of SSR-156 and from that shown at page 31 of SSR-99.
- g. Please refer to pages 30 and 32 of SSR-156. The table on page 30 is titled "COST PER SQFT BY DELIVERY GROUP USING ALL

FMS RECORDS." The table on page 32 is titled "COST PER SQFT BY DELIVERY GROUP USING ESTIMATED RECORDS."

- i. Please explain the difference between these two measures of cost per square foot.
- ii. Please explain the difference between "FMS RECORDS" and "ESTIMATED RECORDS."
- iii. The cost per square foot for group 1A is 18.8322 using FMS records and 21.7575 using estimated records. Which estimate is correct? Are these two cost figures meant to be used for different purposes? If so, please explain. If not, then please explain why they differ.
- iv. Does your response to subpart iii, above, apply to similar cost per square foot discrepancies for groups 1B, 1C, 2, and 3? If not, please explain the reason for discrepancies in these other delivery groups.
